Experience service
to all parts of the world...

We've been serving you with logistics of industrial materials globally through our expert staff. Your satisfaction awarded us with improving and expanding services, offering the fastest, safest and most cost-effective options at all times thanks to our strong relations with the lines that prime the global market.

MULTIMODAL TRANSPORT

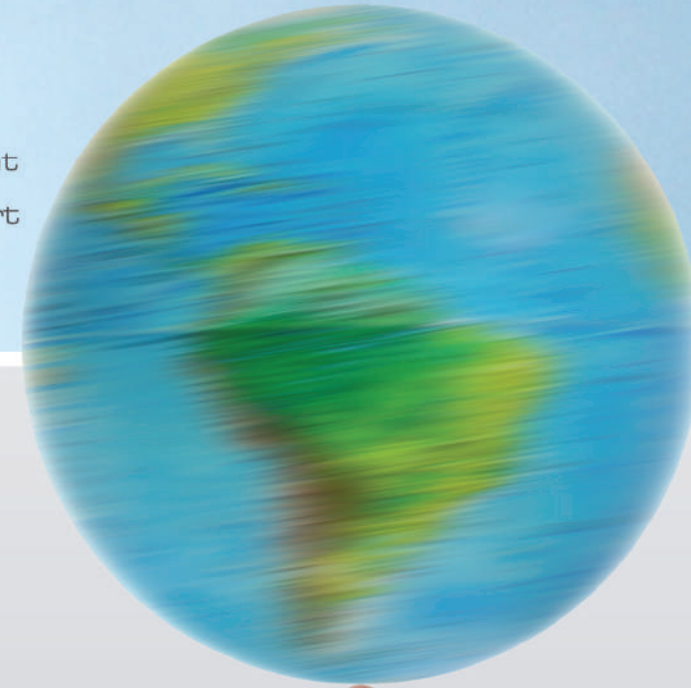

Right on the spot, right on time!

With over ten years of unparalleled experience, we offer limitless alternatives for your multimodal transportation requirements in error-free and safe approach, fully addressing your air, sea or land transportations. Our interconnected offices with a 24/7 online information system and always up-to-date international databases allow us to track and control your cargo with minute punctuality. This gives us the ability to pass you any information on your shipmen including departure and arrival dates, transport progress and discharge details; Whenever you want them and with utmost accuracy.

To take your satisfaction to the next level, we keep improving our services according your demands.

Our Services...

- ✦ Sea transport with cross-trade
- ✦ Air import / export
- ✦ All aspects of logistics
- ✦ Door delivery shipments, supervision coordination of FOB shipments
- ✦ Convenient warehousing services for all sorts of project cargo
- ✦ Warehousing, forwarding, stock management
- ✦ Complementary local support for sea transport
- ✦ Land Transport

We broaden your choices by studying the most convenient and cost-effective mode for your cargo, and offering you alternatives for your particular needs.

We work in close collaboration with the most reliable worldwide carriers such as MSC, YML, OOCL, EVERGREEN, NORASIA, MAERSK and CSCL with special contracts for shorter transit times and lower freight cost alternatives that will give you the freedom to decide for the best that corresponds to your needs.

...from all Turkey ports
to all World ports...

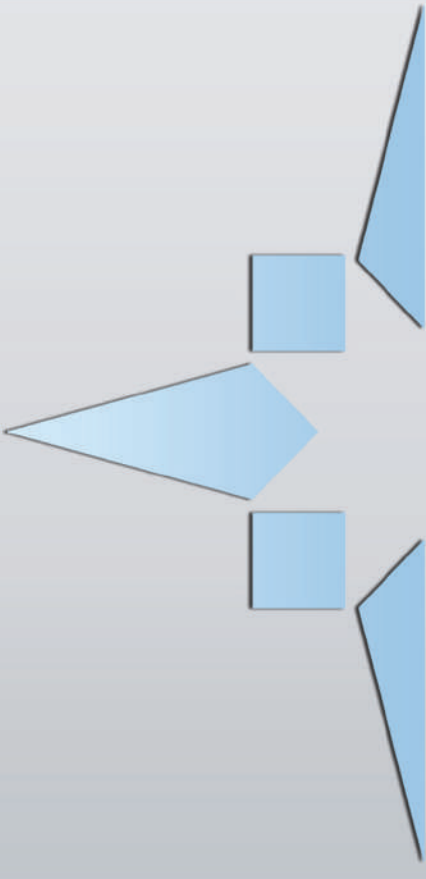

Besides Middle East and Mediterranean countries, we also handle both full and partial shipments around USA, Italy and Latin America ports with our experienced staff and special contracts to give you the best freight quotes and short transit times. We claim utmost service quality from and to all Far East ports which are the most crowded spots in today's world trade.

SEA IMPORT & EXPORT

Whatever the weight and volume of your cargo may be, we are able to keep freight costs and transit times at minimum level through direct services between Izmir port and Far East ports on weekly schedule with special contracts.

We work with world's best agents throughout the world...

We're able to provide at all times the best prices and best service thanks to the strong contracts with carriers and worldwide agents.

Project Cargo requires different skills...

Our project cargo department's specially trained staff brings you the best solutions in transportation from feasibility to loading, discharge and warehousing phases of your large scale and heavy-weight cargo through best carriers around the globe.

Land transport spot accuracy

Both to and from Turkey, all your land transport shipments are delivered to the exact location you require with our integrated logistics services with most cost-effective, safe and flexible solution alternatives.

PROJECT CARGO & LAND TRANSPORT

Partial load is crucial !

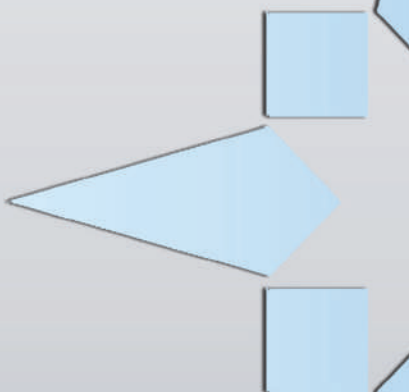

Whatever the weight and volume may be, every cargo that we move has extreme value for us.

This is why we strive to keep costs and transit times at minimum while maximizing professionalism and safety at every stage, and the agents we co-operate worldwide are chosen from the most reliable ones.

To all world airports...

According to your increasing demands, we accomplished new establishments. To move your cargo to more destinations with better prices on time, now we're able to transport between any two airports around the world with more alternatives to address your safe and fast air transport requirements.

Trust...

You don't have to worry about your cargo when professional transportation is supported by a good insurance. Nortrans Insurance service secures your cargo against loss, fire and damage risks, offering you the most suitable coverage for your cargo to prevent you from paying unnecessary costs and missing clauses.

Integrated logistics

We simply take care of everything to pick the cargo at shipper's door and deliver it to consignee's door anywhere in the world.

With this integrated logistics service, we lower the costs and offer shortest transit times.

Cross trade...

Our fast-growing cross-trade department provides the most professional solutions in forwarding and controlling your cargos that transit between other ports without Turkey connection. We removed your worries by ensuring that your cargo is carried by the best carriers and agents between any two other ports around the world, and integrating an information system that can help us provide you with most updated information whenever you want.
